Gardens oy vey?... Yiddish for Oh! Dear!
Why?... Cause gardening ain't easy!

Beavers, voles, drought, heat. Ice storms, tornados, insects.
Grass carp, stray dogs and *dudes* with bulldozers.

These are the predators we battle in our gardens.
Gardens oy vey!

Since 1988 we have gardened with man and beast in
East Shelby County on our five acres.

We have had many many successes and delightful
years of overwhelming beauty...and it is the losses
we remember so sharply.

With that in mind it is our desire
to select and present for you the fruits
of our hard earned education
and to provide you with informed choices.

We love what we do
and we are doing what we love.

No nonsense plants and wisdom.

Happy Gardening...
Diane and Wolfgang
